

Objective Type Questions

1. What is action research? -
✓ (a) Research in a Controlled Situation → Ans
(b) To develop a Theory
(c) It is Controlled
(d) Randomization.
2. Which is a important characteristics of experimental research is? -
(a) It is a Controlled Situation.
(b) Generalization.
✓ (c) Randomization → Ans
(d) Manipulation.
3. Which one of the following is the most essential criterion of a good hypothesis?
(a) The hypothesis should be in the form of a statement.
✓ (b) The hypothesis should be empirical variable - Ans
(c) The hypothesis should have clarity and simplicity
(d) The hypothesis should have practical utility
4. Which one of the following is not based on non-probability sample? -
(a) Cluster sample
(b) Purposive sample
(c) Incidental sample
✓ (d) Quota sample. - Ans.

5 The Fundamental merit of Experimental research is! -

(a) Precision

(b) Control - Ans.

(c) High reliability

(d) Prediction.

(6) Who said 'Interview is a face to face conversation for the purpose of obtaining factual information'?

(a) Kerlinger

(b) Chaplin - Ans

(c) McGuigan

(d) Townsend

(7) The chief merit of participant observation is! -

(a) flexibility

(b) Precision

(c) Naturalism - Ans

(d) Economy

(8) Which one of the following is not a stage involved in Psychological research?

(a) Selection of Problem

(b) Formulation of hypothesis.

(c) Collection of data

(d) Identification of homogeneous population - Ans

(9) Interview schedule is a type of:-

(a) Interview - Ans

(b) Schedule

(c) Questionnaire

(d) Research design

9 Random Sample is more appropriate for:-

- (a) Large population
- ✓ (b) Homogeneous population → Ans
- (c) Heterogeneous population
- (d) extensive population

10 Which of the following is a type of Probability Sampling

- (a) Dense Sampling
- (b) Snowball Sampling
- (c) Systematic Sampling
- ✓ (d) None of these → Ans

11 Which type of questionnaire has wider scope

- (a) Closed Questionnaire
- (b) open Questionnaire
- ✓ (c) Mail Questionnaire → Ans
- (d) None of these

12 Validity of a test refers to:-

- (a) Consistency
- (b) Stability
- ✓ (c) Accuracy → Utility — Ans
- (d) Utility

13 Which of the following methods is not meant for estimating the reliability of a test?

- (a) Split-half method
- (b) The retest method
- ✓ (c) Discrimination method → Ans
- (d) Parallel form method
