

Copyright

Copyright is a legal means of protecting an author's work. It is a type of intellectual property that provides exclusive publication, distribution, and usage rights for the author. This means whatever content the author created cannot be used or published by anyone else without the consent of the author.

What Can Be Copyrighted

Only original works of authorship may be copyrighted. This means that the original creator of the work or his or her agent is the only one who may obtain a copyright.

The following types of works are allowed protection under the copyright law:

- **Literary Works.** This can include novels, nonfiction works, poems, articles, essays, directories, advertising, catalogs, speeches, and computer programs.
- **Musical Works.** This category includes both the musical notation and the accompanying words.
- **Dramatic Works.** This type includes plays, operas, scripts, screenplays, and any accompanying music.
- **Motion Pictures and Other Audiovisual Works.** These include movies, videos, and film strips.

- **Sound Recordings.** This includes recorded music, voice, and sound effects. Thunder, animal noises, and other sounds of nature may be copyrighted by the persons who record them.
- **Pictorial, Graphic, and Sculptural Works.** Works included are sketches, drawings, cartoons, paintings, photographs, slides, architectural and engineering drawings, maps, charts, sculptures, models, fabric designs, and wallpapers.
