

B.Sc. Chemistry Practical; Sem-III

(GE and programme)

Time : 10 AM to 11 AM

F.M-30

Viva-voce questions

- 1) Why viscosity of glycerol is very high?
- 2) Heat of neutralisation of a strong base and ~~an~~ a strong acid is always constant. Explain.
- 3) Write down the working formula of ~~vis~~ ~~sur~~ determination of surface tension of a given liquid.

Examination Procedure:

- 1) Write down the answer of all questions on A-4 size white paper sheet and upload on your WhatsApp group before 11 AM. and Departmental E.mail before 11.30 AM.

Mail ID - Chemistrydepartmentkcc1@gmail.com.

2) Upload the contents in the following order :

- i) 1st page - Name ; College roll no. and Univ. roll no.
- ii) 2nd page - Sem-II marksheet.
- iii) Third page - Answer of viva-voce questions.
- iv) 4th page - Index of your practical record book bearing your name and Roll no.
- v) upload only 1st page of all the experiments bearing your name and roll no.
