STUDENTS SEMINAR

TOPIC: WEATHER FORECASTING

The Students Seminar on 'Weather Forecasting,' hosted by the Department of Geography at Karim City College on December 22, 2018, was a commendable initiative that provided a platform for students to delve into the intricacies of meteorology. Eight students from B.A (Part-3), Semester I and III, delivered insightful lectures, showcasing their knowledge and understanding of weather forecasting. Dr. Aaley Ali, the Head of the Department and Associate Professor, extended a warm welcome to the participants, setting the stage for an engaging session. Following this, Dr. Mohammad Reyaz and Dr. Farzana Anjum, the co-convener, shared their perspectives on the importance of weather forecasting in the field of geography. The event garnered significant participation from a large number of students, illustrating the enthusiasm and interest in the subject. The seminar not only provided a platform for knowledge exchange but also highlighted the commitment of the Department of Geography at Karim City College to foster academic engagement and exploration among its students.

GUEST LECTURE
TOPIC: WEATHER FORECASTING

Resource Person: Dr. Nigar Alam Siddiqui

Associate Professor, Department of Geography, A.M.U, Aligarh

The Department of Geography at Karim City College organized an insightful Guest Lecture on Weather Forecasting on February 8, 2019. The distinguished speaker for the occasion was Nigar Alam Siddiqui, an Associate Professor from Aligarh Muslim University, Aligarh. The event commenced with a warm welcome addressed by Dr. Aaley Ali, the Head of the Department and an Associate Professor. Dr. Mohammad Reyaz further enriched the gathering with his remarks, followed by an address from the co-convener, Dr. Farzana Anjum. The lecture provided a comprehensive understanding of weather forecasting, a crucial aspect of geographical studies. The engagement was well-attended, with a large number of students actively participating in the lecture, reflecting their keen interest in the subject matter. Such academic initiatives underscore the commitment of the Department of Geography at Karim City College to provide valuable insights and experiences to its students.

GEOGRAPHICAL EXHIBITION

The Geographical Exhibition organized by the Department of Geography at Karim City College during the academic session 2018-19 stands as a testament to the department's commitment to fostering a comprehensive understanding of geographical concepts. This event served as a platform for students to showcase their research, projects, and innovative ideas in the field of geography. The exhibition aimed to create awareness and appreciation for the diverse aspects of geography, encompassing physical, human, and environmental dimensions. The academic community, as well as several eminent personalities in the field of geography, graced the occasion, adding valuable insights and perspectives. Their presence not only enriched the exhibition but also motivated and inspired the participating students. The Geographical Exhibition, with its vibrant displays and interactive presentations, played a pivotal role in promoting the importance of geographical knowledge and research within the academic community and beyond.

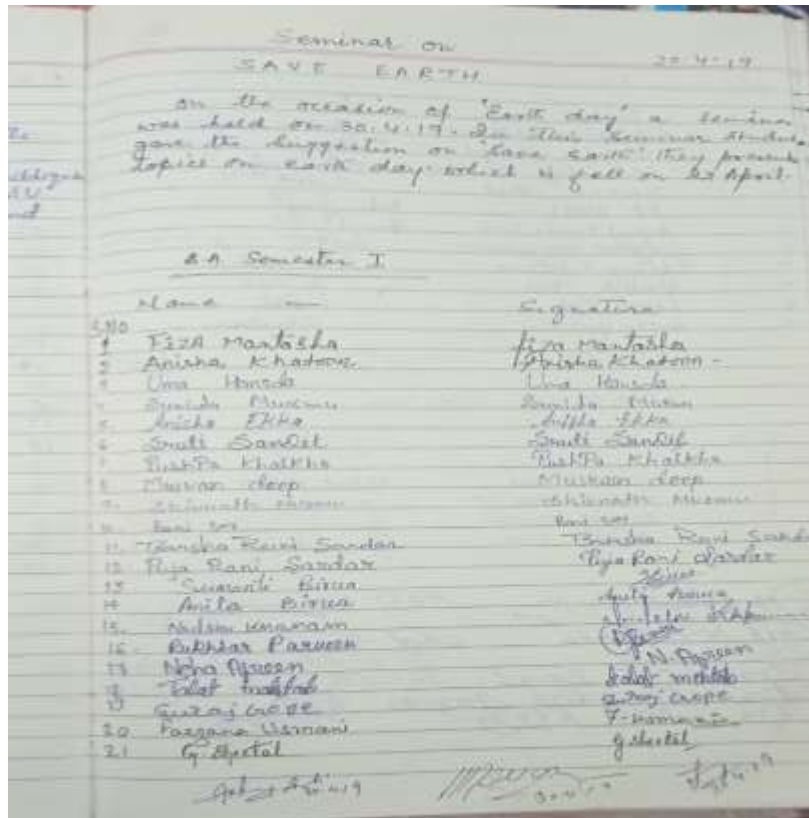

STUDENTS SEMINAR

TOPIC: SAVE EARTH

3

The Students Seminar on 'Save Earth,' organized by the Department of Geography at Karim City College on April 30, 2019, was a significant event promoting environmental awareness and sustainable practices. The seminar featured enlightening lectures delivered by five students from B.A (Part-3), Semester I, and III, showcasing their understanding and commitment to the cause. Dr. Aaley Ali, the Head of the Department and Associate Professor, extended a warm welcome, setting the stage for the impactful discussions that followed. Dr. Mohammad Reyaz and Dr. Farzana Anjum, as the subsequent speakers, added depth and insights to the seminar's theme. The event witnessed active participation from a large number of students, reflecting a collective concern for environmental issues. This initiative underscored the Department's dedication to fostering a sense of responsibility towards the planet and instilling environmental consciousness among the students.

SURVEY CAMPS

The Department of Geography at Karim City College conducted Survey Camps during the academic session 2018-19, providing students from Semester 1 and 2 with hands-on experience in the application of geographical instruments. Under the guidance of Dr. Aaley Ali, the Head of the Department, along with Dr. Mohammad Reyaz and Dr. Farzana Anjum, students engaged in practical fieldwork, applying theoretical concepts learned in the classroom. The survey camps aimed to enhance students' skills in data collection, measurement, and analysis using geographical instruments. Through these immersive experiences, students gained a deeper understanding of survey techniques and their practical implications in geographical studies. The commitment of the faculty to guide and mentor students in these survey camps exemplifies the department's dedication to providing a well-rounded and practical education in geography at Karim City College.

QUIZ COMPETITION

The Quiz Competition, organized by the Department of Geography at Karim City College during the academic session on November 13, 2018, was a commendable initiative that showcased the academic prowess and enthusiasm of the students. Participants from Semester 1 and 2 actively
