Abstract

Modern concept of the "teaching-learning process" involves a purposeful activity. Education without a purpose is a journey without a destination. The objective is to ensure the achievement of the desired. The watchword of modern teaching is "learning by doing". The child is active by nature. It is sometime said that a child remembers 15% of what he hears, 50% of what he sees, and 90% of what he does. It implies Role of Reason and intuition as a means of knowledge in the contemporary world is important for providing and universal design in the teaching-learning process. There are two major paths in the world. A rational and objective approach to knowledge has been developed to an unprecedented degree in western civilization since the enlightenment. Education is a dynamic process. If we study the history of education then we can see many curricular and pedagogical changes in the way of modernisation. Interdisciplinary approaches and curriculum STEAM is also playing an important and leading role. STEM represents science, technology, engineering and mathematics. "STEAM" represents STEM plus the art, music, literature, dance, drama, music, visual arts design and new media. STEAM approach focuses on scientific concepts. The learner needs to

ABOUT THE BOOK

In this book we have tried to bring together the intellectual perspectives on the topic "India @ 75: Achievements and Oppor...". India's 75 years of economic and social policies have affected the economic growth of the Indian society and their living standard, due to which we are currently moving forward on the path of sustainable development. On the occasion of 75th Anniversary (Amrit Mahotsav) of India, we are seeing that India is on the way to achieving its goals in the world. India is on the path of progress and empowerment, becoming the world's fastest-growing large economy in an emerging global market with the world's third-largest start-up ecosystem. India has overtaken the U.K. to become the world's fifth-largest economy and is now behind only the US, China, Japan and Germany, according to IMF projections. This book has attempted to describe all these issues in this book and covered numerous topics regarding the themes and subthemes such as India at 75: Economic Scorecard & Looking Ahead, Impact of Social Media Marketing, A New and Forward-Looking Vision for India's Higher Education Under New Education Policy (NEP) 2020, Child Labour, A Study on Growing Women Service Providers in India's GiG Economy, Cultural Globalisation, Youth Empowerment of India, Corporate Social Responsibility in India, Contribution of SHG'S in Inclusive Banking and Financial Inclusion, Inclusive Democracy, The Empowerment of Women, Teaching-Learning Process, Nutritional Awareness, Tight and Liberal Monetary Framework of India, Start-up of Educational Platforms in Educational Sector, National Educational Policy, 2020, E-learning Initiatives, Food Security in India, Use of Electronic Resources and Its Impact on Higher Education, Technical Education, Human Development Index, One Nation One Ration Card Scheme, Special Economic Zones in India, Vocational Education and other issues are discussed in the book. Hope the book will be a milestone in the education and research wings.

ABOUT THE EDITOR

Dr. Dinesh Kumar Gupta is working as an Assistant Professor of Economics at Government Degree College, Banbasa, Champawat, Uttarakhand, affiliated with Soban Singh Jeena University, Almora Uttarakhand. He is a life member of the Indian Economic Association-IEA and Uttar Pradesh-Uttarakhand Economic Association-UPUEA, also working as an EC member of UPUEA.
