

Annual Report 2022-23:

MoU Between Koru Foundation and Karim City College

In 2022-23, Karim City College partnered with the **Koru Foundation** through an MoU, focusing on environmental sustainability, waste management, and social entrepreneurship. This collaboration aimed to raise awareness and equip students with practical skills for green initiatives.

Key Events:

1. MoU Signing (30.05.2022):

- Partnerships established to promote sustainability, green initiatives and energy conservation through educational and hands-on projects.

2. Social Entrepreneurship Seminar (8th September 2022):

- Theme: "Scope of Social Entrepreneurship"
- **Keynote Speaker:** Mr Amit Kumar Sinha, Director of Koru Foundation
- Students learned to integrate sustainable practices in entrepreneurship, with over 137 participants launching green initiatives like waste recycling.

Documentary Screening (8th September 2022):

- Film: "How Sacred Flowers are turned into incense sticks" by Udeyami India and World Wide Waste.
- The post-screening discussion emphasized sustainability challenges and student involvement in sustainability efforts.

Scope in
SOCIAL
entrepreneurship
Under Sustainable Development Sector

Resource Person :
Mr Amit Sinha, Director, KoRu Foundation

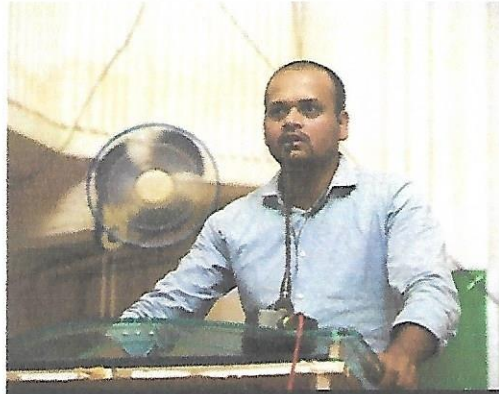

8 Sept | COLLEGE

An eventful evening with the youth of our city, in Karim City College

Dr. Mohammad Reyaz, Principal sharing his thoughts on sustainability of solutions the only way ahead

Koru Foundation, sharing with the students the various opportunities in the field of social sector for all of us

Institutional Innovation Council, Department heads and our Team Directors

Great to see the youth interested in finding out new pathways

Impact:

- Students gained insights into waste management and sustainability.
- Students understood the concept of Social Entrepreneurship

Conclusion:

This partnership has fostered environmental consciousness and practical skills among students, with plans for further workshops, green initiatives, and community outreach programs.
